DETAILED ACTION

Priority

This application is a national stage entry of International Application No. PCT/CZ04/00064, filed October 8, 2004, which claims foreign priority to Czech Republic Application No. 14679-03, filed on October 8, 2003. The copy of certified copy of the priority has been filed with the instant Application. It is noted that Czech Application No. 14679-03 is not in English; no translation of said application into English has been provided.

Claims 1-10 are pending in this application and are examined on the merits herein.

Information Disclosure Statement

Only the abstracts of foreign patent documents 1 and 2 of the IDS submitted July 5, 2006 were considered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-10 provide for the use of hyaluronic acid, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced. No art rejections will be made at this time because it is unclear what is being claimed.

Claims 1-10 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claim 6 recites the limitation "chewing substance." This limitation is not defined by the claim or the specification. Thus, the skilled artisan would not be apprised of the metes and bounds of the claim.

Claim 10 recites the limitation "instant drink or syrup." It is unclear which drinks or syrups are to be considered "instant" and the specification gives no guidance on this point. Thus, the skilled artisan would not be apprised of the metes and bounds of the claim.
